Call for Nominations
Editor-In-Chief
ACM Digital Threats: Research and Practice (DTRAP)

The term of the current Editor-in-Chief (EIC) of [ACM Digital Threats: Research and Practice (DTRAP)](#) has ended, and the [ACM](#) Publications Board has set up a nominating committee to assist the Board in selecting the next EIC to lead the publication. As described on the journal's home page, DTRAP "is a peer-reviewed Gold Open Access journal that targets the prevention, identification, mitigation, and elimination of digital threats. DTRAP aims to bridge the gap between academic research and industry practice. Accordingly, the journal welcomes manuscripts that address extant digital threats, rather than laboratory models of potential threats, and presents reproducible results pertaining to real-world threats."

Nominations, including self-nominations, are invited for a three-year term as DTRAP EIC, beginning on June 1, 2024. The EIC appointment may be renewed at most one time. This is a voluntary position, but ACM will provide appropriate administrative support.

Appointed by the ACM Publications Board, Editors-in-Chief of ACM journals are delegated full responsibility for the journal's editorial management consistent with the journal's charter and general ACM policies. The Board relies on EICs to ensure that the journal's content is of high quality and that the editorial review process is both timely and fair. They have the final say on the acceptance of papers, the Editorial Board size, and Associate Editors' appointment. The [ACM Volunteer Editors Position Description](#) contains a complete list of responsibilities.

Nominations should include a **CV** and **a statement of the candidate's vision for the future development of DTRAP.**

The deadline for submitting nominations is April 15, 2024, although nominations will continue to be accepted until the position is filled. Please send all nominations to the search committee chair, Holly Rushmeier, holly@acm.org.

The search committee members are:

- Holly Rushmeier (Yale University), *Chair & ACM Publications Board Liaison*
- Jeroen van der Ham (University of Twente)
